

As September closes and October begins, we're reminded that every ending carries the seed of a new beginning. In this natural shift of seasons, we mirror the transitions within ourselves.\_

### **Come Know Yourself**

A journey for the Awakened Woman

In the previous workshop \_Come Meet Yourself\_, we opened the door to awareness and touched down into self. Now, it's time to step further inside — **to know yourself more deeply**.

Guided by a **science-based model of transition and change**, this experience frames the journey of self-discovery through the natural phases of \_endings, the space-between, and new beginnings\_. You'll be held in both evidence-based practice and soulful reflection as you navigate your own story.

No prior workshop needed — come as you are.
